

Dear Dallas-Area Corporate Partner:

The Dallas Society of Women Engineers (SWE) invites you to partner with us by supporting our organization in our mission to empower professional engineers to succeed as well as to guide young girls toward careers in Science, Technology, Engineering, and Math (STEM).

SWE promotes engineering as a highly desirable, exciting, and accessible career for women through an extensive array of training and development programs, networking opportunities, scholarships, outreach and advocacy activities, and much more. Your support and funding help us provide the following events and services:

- **Professional Development, Technical Sessions, Networking, and Mentoring**, both for our members and in tandem with partner companies
- **Scholarships** for Dallas-area high school and collegiate women pursuing STEM degrees
- **Youth Outreach** events throughout the year, including events at schools and in partnership with local museums
- **Design Your World – STEM Conference for Girls**, Dallas SWE's award-winning signature outreach event series, which has impacted over 2800 girls from 4-12th grade as well as hundreds of parents and educators over the life of the program. Students participate in a variety of hands-on engineering design challenges, while parents and educators attend panels focused on supporting students in their pursuit of STEM fields from the exploration phases through college funding.

As a non-profit organization, **we need your help** to enable Dallas SWE's programs supporting Dallas-area women in STEM professions as well as encouraging the next generation of girls who will engineer our future.

Sponsorship offers your company the opportunity for recognition by the large community of professionals, parents, teachers, and volunteers, and highlights your support of women and girls in science, engineering, and math.

Feel free to contact us with any questions or for further details about the benefits of sponsorship. Thank you for your consideration, and we look forward to working with you soon.

Respectfully,
Katie Mills
Treasurer, Dallas Society of Women Engineers
